Absentee Ballot Deadline Oct. 29

Persons who will be away from Appomattox County on November 3rd, who are sick and unable to go to the polls, who are members of the armed forces, or students away as college, are eligible to vote by absentee ballot in the coming election.

The deadline for applying for an absentee ballot is October 29, but because of time lost in mailing back application forms and ballots, all those who expect to have to vote in this manner should apply for a ballot immediately.

A registered voter may ask for an application for an absentee ballot. This application must be filled out and then certified by the proper registrar. If a person takes his application after it has been certified by the registrar to Mrs. Emma Lemon, Secretary of the Electoral Board, the voter may vote in her presence as she is a Notary Public. Her office is located over the Treasurer's Office. After casting the ballot, the voter seals it in an envelope and Mrs. Lemon will file it in the proper precinct folder for opening on election day.

If a voter is not able to appear before Mrs. Lemon, upon receipt of the application, she will mail the voter his ballot which must be taken before a Notary Public, court clerk, justice of the peace or a person authorized to take acknowledgments and in the Notary's presence vote the ballot. Persons in military service may appear before any commissioned officer. The marked and sealed ballot should then be returned by registered or certified mail to the Secretary of the Electoral Board.

The deadline for requesting ballots does not leave much time for voting by mail and persons set forth of forms and ballots before November 3rd.

Anyone desiring to vote by mail or needing assistance in making application for an absentee ballot may contact one of the following: J. C. Caldwell, L. L. Stanley, Barbara Cauthorne, Harry G. Lawson, D. A. Conner or Mrs. Emma Lemon.

The princesses, 31 in all, were treated to a round of activities—among them noon time "Fashion parades" at Miller and Rhoads and Thalheimers. the Festival Parade Friday night, and Saturday's game time festivities and evening invitational ball.

Barbara, dressed in tweed with black accessories, and escorted by a VMI cadet, was driven slowly around City Stadium in a convertible as part of the colorful goings on before the VMI-UVA football classic on Saturday.

Barbara is the daughter of Lt. and Mrs. L. E. Thomas and was sponsored by the Junior Woman's Club of Appomattox.

Miss Appomattox County

Barbara, with the title of "Miss Appomattox County" was sent by the club after first checking with the reigning "Miss Appomattox" Miss Eloise Rosser. Miss Rosser, one year older than the Festival rules allow, had to decline the honor, and first runner-up, Merlyn Kay Martin, felt that her heavy schedule as a freshman at VPI would prevent her taking part. The Junior Woman's Club, through their president, Mrs. Peggy Lawson, expressed appreciation to Barbara for her fine showing at the Festival. According to one Festival official, Barbara was "First runner-up" to the winner, Miss South Hill, though customarily, no such announcement is made of princesses who rank high with the judges on beauty, poise, and talent.

County Farmers Sign-Up 1,236 Acres In Wheat Division Pgm.

Farmers in Appomattox County have signed up to divert 1236 acres from wheat production under the 1965 voluntary wheat program, J. A. Martin, chairman of the Agricultural Stabilization and Conservation County Committee, reports. This acreage will be devoted to approved conservation uses.

The signup amounts to 22 per cent of the 5654 acres allotted to Appomattox County for 1965 wheat plantings and includes 405 of the county's wheat farms.

The wheat signup period ended October 2. Mr. Martin noted that growers who have signed up to participate in the program will be permitted to change their intentions any time before the 1965 feed grain program signup ends which will probably be next March.

In Virginia, the signup report through October 2, showed that 17,015 farms, 39 percent of the State's total, had signed to participate in the program by October 2. They signed to divert 65,366 acres, 42 per cent of their total farm allotment.

Nationally, the wheat allotment on signed farms is 34,848,504 acres. This is about 82 per cent of the effective wheat allotment in counties of states where the signup was conducted.

Growers who have signed under the 1965 wheat program and carry out the appropriate conservation practices are eligible for price support loans, market certificate payments on wheat planted and diversion payments. The diversion payment rates have been increased over last year to 50 per cent of the county loan rate to encourage maximum diversion and continued progress in reducing excessive grain stocks.
